FULL LENGTH PAPERS

Conic mixed-integer rounding cuts
A. Atamtürk · V. Narayanan  1

Semidefinite representation of convex sets
J.W. Helton · J. Nie  21

On a special class of regularized central paths for semidefinite programs
A. Lin  65

Strongly polynomial and fully combinatorial algorithms for bisubmodular function minimization
S.T. McCormick · S. Fujishige  87

Coefficient strengthening: a tool for reformulating mixed-integer programs
K. Andersen · Y. Pochet  121

Nonlinear programming without a penalty function or a filter
N.I.M. Gould · Ph.L. Toint  155
