Table of Contents

Elsewhere in the CS

Computer Highlights Society Magazines (HTML)
pp. 4-5

The Known World

The Habit of Change (HTML)
David Alan Grier, George Washington University
pp. 6-8

32 and 16 Years Ago

32 and 16 Years Ago (HTML)
pp. 9-10

Technology News

Bringing 3D to the Small Screen (HTML)
Sixto Ortiz Jr.
pp. 11-13

News Briefs (HTML)
pp. 14-16

Guest Editors' Introduction

Where Software Engineering Meets ... (HTML)
Carl K. Chang, Iowa State University
David M. Weiss, Iowa State University
Mike Hinchey, Lero - the Irish Software Engineering Research Centre
pp. 17-18

Cover Features

Can Practitioners Neglect Theory and Theoreticians Neglect Practice? (HTML)
Manfred Broy, Technical University of Munich, Germany
pp. 19-24

Open Source Software: Lessons from and for Software Engineering (HTML)
Brian Fitzgerald, Lero - the Irish Software Engineering Research Centre
pp. 25-30

Software Engineering Meets Evolutionary Computation (HTML)
Mark Harman, University College London
pp. 31-39

Software Engineering for Space Exploration (HTML)
Robyn Lutz, Iowa State University and Jet Propulsion Laboratory, California Institute of Technology
pp. 41-46

Software Engineering Meets Services and Cloud Computing (HTML)
Stephen Yau, Arizona State University
Ho An, Arizona State University
pp. 47-53

Software Engineering - Missing in Action: A Personal Perspective (HTML)
David Parnas, Middle Road Software
pp. 54-58

Research Feature
Display Power Management That Detects User Intent (HTML)
Jae Min Kim, Korea University
Minyong Kim, Korea University
Joonho Kong, Korea University
Hyung Beom Jang, Korea University
Sung Woo Chung, Korea University
pp. 60-66

UTA's Yale Patt Wins First IEEE CS Rau Award (HTML)

Object Digitization for Everyone (HTML)
Justin Clark, Microsoft
pp. 81-83

From Data Analysis and Visualization to Causality Discovery (HTML)
Min Chen, University of Oxford, UK
Anne Trefethen, University of Oxford, UK
René Bañares-Alcántara, University of Oxford, UK
Marina Jirotka, University of Oxford, UK
Bob Coecke, University of Oxford, UK
Thomas Ertl, University of Stuttgart
Albrecht Schmidt, University of Stuttgart
pp. 84-87

Guidelines for Software Development Effort Estimation (HTML)
Dirk Basten, University of Cologne, Germany
Ali Sunyaev, University of Cologne, Germany
pp. 88-90

Twitter Mood as a Stock Market Predictor (HTML)
Johan Bollen, Indiana University Bloomington
Huina Mao, Indiana University Bloomington
pp. 91-94

Learning How to Prepare Computer Science High School Teachers (HTML)
Mark Guzdial, Georgia Institute of Technology
pp. 95-97

Digital Machinery and Analog Brains (PDF)
Neville Holmes, University of Tasmania
pp. 100, 98-99
