SPECIAL FOCUS ON PERFORMANCE MODELLING, BENCHMARKING AND SIMULATION OF HIGH PERFORMANCE COMPUTING SYSTEMS

136 Editorial: Performance Modelling, Benchmarking and Simulation of High-Performance Computing Systems
S.A. Jarvis

138 On the Acceleration of Wavefront Applications using Distributed Many-Core Architectures
S.J. Pennycook, S.D. Hammond, G.R. Mudalige, S.A. Wright and S.A. Jarvis

154 Performance Characteristics of Hybrid MPI/OpenMP Implementations of NAS Parallel Benchmarks SP and BT on Large-Scale Multicore Clusters
Xingfu Wu and Valerie Taylor

168 Performance Analysis and Optimization of the OP2 Framework on Many-Core Architectures

181 SST: A Scalable Parallel Framework for Architecture-Level Performance, Power, Area and Thermal Simulation
Ming-yu Hsieh, Rolf Riesen, Kevin Thompson, William Song and Arun Rodrigues

192 Benchmarking Energy Efficiency, Power Costs and Carbon Emissions on Heterogeneous Systems
Simon McIntosh-Smith, Terry Wilson, Amaurys Avila Ibarra, Jonathan Crisp and Richard B. Sessions

206 Memory Trace Compression and Replay for SPMD Systems Using Extended PRSDs
Sandeep Budanur, Frank Mueller and Todd Gamblin
