Journal of Approximation Theory
Volume 164, Issue 7, Pages 869-1006 (July 2012)

Editorial Board
Page ii/c

Editorial Board
Page i

Widths of certain classes of periodic functions in \( L_2 \)
Original Research Article
Pages 869-878
Mirgand Shabozovich Shabozov, Gulzorkhon Amirshoevich Yusupov

Equiconvergence of spectral decompositions of 1D Dirac operators with regular boundary conditions
Original Research Article
Pages 879-927
Plamen Djakov, Boris Mityagin

Bounds for the perimeter of an ellipse
Original Research Article
Pages 928-937
Miao-Kun Wang, Yu-Ming Chu, Song-Liang Qiu, Yue-Ping Jiang

On an approximation family of discrete polynomial operators
Original Research Article
Pages 938-953
Yu.A. Brudnyi, I.E. Gopengauz

Polynomial approximation on domains bounded by diffeomorphic images of graphs
Original Research Article
Pages 954-970
Ulrich Reif

A completely monotonic function involving \( q \)-gamma and \( q \)-digamma functions
Original Research Article
Pages 971-980
Ahmed Salem
Asymptotics for Ménage polynomials and certain hypergeometric polynomials of type \( 3F_1 \)
Original Research Article
Pages 981-1006
Thorsten Neuschel
