Enteral nutritional support via the mucous fistula: feasibility and safety in post-operative patients
C. M. Lever and L. Vokes and J. Pratt and T. M. Trebble
Proceedings of the Nutrition Society, Volume 69, Issue OCE2, January 2010, pp E159
doi: 10.1017/S0029665109993557, Published online by Cambridge University Press 01 Apr 2010

Nurse accuracy in interpreting pH from pH strip testing
R. J. Clemente
doi: 10.1017/S0029665109993569, Published online by Cambridge University Press 01 Apr 2010

Comparison of three nutrition screening tools for patients with cancer in a regional cancer centre
S. M. Lewis
Proceedings of the Nutrition Society, Volume 69, Issue OCE2, January 2010, pp E161
doi: 10.1017/S0029665109993570, Published online by Cambridge University Press 01 Apr 2010

Complication rates for central venous catheters used for parenteral nutrition
P. Dave and A. F. Cartwright and J. M. Subhani
doi: 10.1017/S0029665109993582, Published online by Cambridge University Press 01 Apr 2010
Are dietitians able to estimate patient's weight accurately?
K. L. Barker and Acute Team Dietitians

Improved compliance and increased intake of energy and protein with a high energy density, low volume multi-nutrient supplement
G. P. Hubbard and B. Buchan and K. Sanders and S. Brothers and R. J. Stratton

Combination enteral and parenteral feeding regimes improve glycaemic control in the post-operative surgical patient
P. G. Liddier and D. Flanagan and S. Fleming and T. Wheatley and J. Rahamin and S. J. Lewis

Combination enteral and parenteral feeding regimes improve glycaemic control in the post-operative surgical patient
P. G. Liddier and D. Flanagan and S. Fleming and T. Wheatley and J. Rahamin and S. J. Lewis

Consideration of sweetness, sweetness thresholds and repeat consumption on the liking of oral nutritional supplements by older cohorts
L. Methven and O. B. Kennedy and L. Ladbrooke-Davies and L. Kinneavy and M. A. Gosney

A randomised double blind controlled crossover trial of taurine supplementation in home parenteral nutrition
A. Culkin and A. M. Madden and A. Forbes and S. M. Gabe

Patterns of oral nutritional support prescription in hospital in-patients: comparison of dietetic versus non-dietetic prescriptions
E. Walton and M. O'Donnell and C. T. Soulsby

Enteral trickle feeding reduces abnormal intestinal permeability in patients receiving parenteral nutrition
P. G. Liddier and D. Flanagan and S. Fleming and T. Wheatley and J. Rahamin and S. J. Lewis

Results of The SIGNET Trial – a randomised controlled trial of glutamine and/or selenium supplemented parenteral nutrition in critical illness
P. J. Andrews and A. Avenell and The Signet Trial Group

Prevalence of malnutrition risk, thinness, obesity and short stature in patients from a paediatric tertiary and district general hospitals

A review of the nutritional status and nutritional support in patients diagnosed with Clostridium Difficile in a surgical unit
R. C. Barlow and G. Howell

A prospective examination of glycaemic control in patients with insulin requiring diabetes receiving intermittent and continuous enteral feeding in an acute hospital setting
P. M. Murphy and E. Moore and D. Flanagan
Do regular oral nutritional supplements improve clinical outcomes in patients with Clostridium difficile infection: a pilot study
S. S. Wong and J. O’Driscoll and M. Weldon and C. Y. Yau

Procedures of the Nutrition Society, Volume 69, Issue OCE2, January 2010, pp E174
doi: 10.1017/S0029665109993703, Published online by Cambridge University Press 01 Apr 2010

Nutritional status predicts hospital length of stay and mortality in patients with Clostridium difficile (C. diff) infection
S. S. Wong and J. O’Driscoll and M. Weldon and C. Y. Yau

Procedures of the Nutrition Society, Volume 69, Issue OCE2, January 2010, pp E175
doi: 10.1017/S0029665109993715, Published online by Cambridge University Press 01 Apr 2010

Doctors’ poor knowledge of nutritional supplementation in acutely unwell patients: no wonder recovery is slow!
M. I. Butt and Katherine Barker and Lynn Sawyer and Andrew Johnson

Procedures of the Nutrition Society, Volume 69, Issue OCE2, January 2010, pp E176
