Dry molten globule intermediates and the mechanism of protein unfolding (pages 2725–2737)
Robert L. Baldwin, Carl Frieden and George D. Rose
Article first published online: 15 JUN 2010 | DOI: 10.1002/prot.22803

Structure of the ATP-binding domain of *Plasmodium falciparum* Hsp90 (pages 2738–2744)
Kevin D. Corbett and James M. Berger
Article first published online: 14 JUN 2010 | DOI: 10.1002/prot.22799

Fold homology detection using sequence fragment composition profiles of proteins (pages 2745–2756)
Armando D. Solis and Shalom R. Rackovsky
Article first published online: 8 JUN 2010 | DOI: 10.1002/prot.22788

Gain of local structure in an amphipathic peptide does not require a specific tertiary framework (pages 2757–2768)
Ernesto A. Roman, Pablo Rosi, Mariano C. González Lebrero, Rodolfo Wuilloud, F. Luis González Flecha, José M. Delfino and Javier Santos
Article first published online: 8 JUN 2010 | DOI: 10.1002/prot.22789

TASSER_low-zsc: An approach to improve structure prediction using low z-score–ranked templates (pages 2769–2780)
Shashi B. Pandit and Jeffrey Skolnick
Article first published online: 10 JUN 2010 | DOI: 10.1002/prot.22791

i-Patch: Interprotein contact prediction using local network information (pages 2781–2797)
Rebecca Hamer, Qiang Luo, Judith P. Armitage, Gesine Reinert and Charlotte M. Deane
Article first published online: 10 JUN 2010 | DOI: 10.1002/prot.22792

Fold versus sequence effects on the driving force for protein-mediated electron transfer (pages 2798–2808)
Bradley Scott Perrin Jr. and Toshiko Ichiye
Article first published online: 10 JUN 2010 | DOI: 10.1002/prot.22794

Application of biasing-potential replica-exchange simulations for loop modeling and refinement of proteins in explicit solvent (pages 2809–2819)
Srinivasaraghavan Kannan and Martin Zacharias
Structural and catalytic roles of amino acid residues located at substrate-binding pocket in *Fibrobacter succinogenes* 1,3–1,4-β-D-glucanase (pages 2820–2830)
Je-Hsin Chen, Li-Chu Tsai, Hsiao-Chuan Huang and Lie-Fen Shyur
Article first published online: 14 JUN 2010 | DOI: 10.1002/prot.22798

The role of Buergi-Dunitz interactions in the structural stability of proteins (pages 2831–2838)
Christian Fufezan
Article first published online: 15 JUN 2010 | DOI: 10.1002/prot.22800

Crystal structure of a truncated urease accessory protein UreF from *Helicobacter pylori* (pages 2839–2848)
Robert Lam, Vladimir Romanov, Kathy Johns, Kevin P. Battaile, Jean Wu-Brown, Jennifer L. Guthrie, Robert P. Hausinger, Emil F. Pai and Nickolay Y. Chirgadze
Article first published online: 14 JUN 2010 | DOI: 10.1002/prot.22802

Binding of nonsteroidal anti-inflammatory drugs to Aβ fibril (pages 2849–2860)
Takako Takeda, Wenling E. Chang, E. Prabhu Raman and Dmitri K. Klimov
Article first published online: 15 JUN 2010 | DOI: 10.1002/prot.22804
