Surgical and Radiologic Anatomy

Volume 33, Number 2 / March 2011

91-95

Original Article

A new lateral approach to the parasacral sciatic nerve block: an anatomical study

Thomas Le Corroller, Rodolphe Wittenberg, Vanessa Pauly, Nicolas Pirro, Pierre Champsaur, et al.

97-104

Original Article

Effect of Q-angle on patellar positioning and thickness of knee articular cartilages

Aikaterini E. Tsakoniti, Dimitris G. Mandalidis, Spyros I. Athanasopoulos, Christoforos A. Stoupis

105-108

Original Article

Denervation point for neuromuscular blockade on lateral pectoral nerves: a cadaver study

109-115

Original Article

Predicted cervical canal enlargement and effective cord decompression following expansive laminoplasty using cervical magnetic resonance imaging

Mohd Imran Yusof, Eskandar Hassan, Shafie Abdullah

117-122

Original Article

Vascular components of the posterior mediastinum: applications for video-assisted thoracoscopic surgery

OuYang Hougan, Ding Zhihai, Zhihe Ouyang
Original Article

Temporal bone imaging using digital volume tomography and computed tomography: a comparative cadaveric radiological study

Afshin Teymoortash, Stella Hamzei, Tobias Murthum, Behfar Eivazi, Ingo Kureck, et al.

Original Article

Computed tomographic angiography of the superior sagittal sinus and bridging veins

Carolin Brockmann, Sandra Kunze, Johann Scharf

Original Article

Variable osseous anatomy of costal surface of scapula and its implications in relation to snapping scapula syndrome

Anjali Aggarwal, Pratima Wahee, Harjeet, Aditya K. Aggarwal, Daisy Sahni

Original Article

Detection of buccal perimandibular neurovascularisation associated with accessory foramina using limited cone-beam computed tomography and gross anatomy

Kaori Fuakami, Kazuya Shiozaki, Akira Mishima, Shinji Shimoda, Yoshiki Hamada, et al.

Anatomic Bases of Medical, Radiological and Surgical Techniques

The surgical importance of an axillary arch in sentinel node biopsy

P. F. Ridgway, A. M. Collins, D. R. McCready
Branching patterns of the male internal iliac artery: imaging findings

161-169

Teaching Anatomy

The study techniques of Asian, American, and European medical students during gross anatomy and neuroanatomy courses in Poland

Anna Żurada, Jerzy St. Gielecki, Nilab Osman, R. Shane Tubbs, Marios Loukas, et al.

171-174

Anatomic Variations

Cystoduodenal ligament as an abnormal fold and the accompanying anatomical and clinical implications

J. O. Ashaolu, V. O. Ukwenya, T. K. Adenowo

175-179

Anatomic Variations

Anatomic relationship between the spinal accessory nerve and the jugular vein: a cadaveric study

M. Saman, P. Etebari, M. N. Pakdaman, M. L. Urken

181-183
